

SignWave portable receiver

Simple to use and ergonomically designed for both Deaf and Hard of Hearing people, the portable SignWave Receiver uses strobe, variable sound frequencies, and the incoming alert symbol to notify the user to an event.

Alert Options include:

Telephone	Doorbell	Door Entry
Person to Person	Baby Alarm	Car Alarm
Burglar Alarm	Smoke Alarm	Fire Alarm
Carbon Monoxide	Door Monitor	Chair Leaving
Movement Monitor	Fall Alarm	Low Monitor Battery

Each event has a unique sound to help the user to identify the different alerts. A volume and frequency setting can be altered to suit the individual's needs.

Once the SignWave is placed in its bedside charger base, an optional vibrating pillow pad will operate to help wake the user if a signal is received during the night.
