

## Chair Leaving Mini Monitor

### Chair Leaving Pad

This compact, battery operated wireless Chair Leaving Monitor is both simple to fit and discreet in operation. Powered by a 9V alkaline battery, the Monitor sends a signal to a Pager or SignWave portable receiver when a person releases pressure from the chair leaving pad.

The Chair leaving Monitor is ideal for use when caring for someone who may wander or have difficulty when trying to stand.

When a signal is received from the Monitor it will be indicated as a person to person signal on the Receiver.
